DETAILED ACTION

This application is a 371 filing of PCT/AU00/00408, filed May 5, 2000, which claims benefit to foreign applications PQ 0202, filed May 6, 1999, PQ 203, filed May 6, 1999, PQ 0204, filed May 6, 1999, and PQ 1361, filed June 30, 1999.

Claims 1-34 are pending.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 1-15, 20-30 and 34, drawn to a method of preparing a reprogrammed diploid cell comprising introducing diploid nuclear material into a recipient cell, then removing the recipient cell's nuclear material to result in a reprogrammed diploid cell.

Group 2, claim(s) 16, 25, 31, 33, drawn to a method of making a genetically modified cell.

Group 3, claim(s) 17 and 32, drawn to a method of making a genetically abnormal cell.

Art Unit: 1632

Group 4, claim(s) 18, drawn to a method for improving or restoring function to a tissue or organ by transferring a reprogrammed cell or derivative thereof into an animal.

Group 5, claim(s) 19, drawn to a method of gene therapy by transferring a genetically modified reprogrammed cell or derivative thereof.

The inventions listed as Groups 1-5 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: in this case, the method of group 1 encompasses methods of nuclear transfer where donor diploid cells were fused to a recipient MII oocyte and allowed to be reprogrammed.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
